## ProLube Transformer Oil X

Product Group:

Industrial
Lubricants

## **Product Description**

Product Description:

ProLube transformer oil 10# is blended from specially refined, low viscosity base stocks with premium anti-oxidants containing no hazardous substances. It is an electrical insulating fluid, for use in electrical systems where low flammability and improved fire safety characteristics are desired.

Features and Benefits:

Excellent oxidation and thermal stability to maximizes service life.

Superior electrical characteristics and cooling performances.

Recommended Applications:

Suitable for use in transformers, circuit breaks, oil-filled switches and switchgears.

Specifications and Approvals:

Meet the following specification:

GB2536

**Typical Properties** 

Packing:200L
